Inaugural Session

Our Dignitaries

Shri Atal Dulloo, IAS
Hon'ble Chief Secretary, J&K

Shri Shantmanu, IAS (Retd.)
Hon'ble State Election Commissioner, J&K

Shri Chandraker Bharti, IAS
Principal Secretary (Home), J&K

Dr. Piyush Singla
IAS, Secretary (IT), J&K

Ms. Mahima Madan
IAS, CEO, JaKeGA, J&K

Address by MD, NICSI

Shri Alok Tiwari
Managing Director, NICSI

In the welcome address, **Shri Alok Tiwari, Managing Director, NICSI**, described Tech Saksham as a national capacity building initiative aimed at strengthening digital governance and technology adoption across government institutions. He welcomed the Chief Guest and dignitaries, expert speakers, and participating officials, and highlighted the programme's focus on **Artificial Intelligence, Cyber Security, and Cloud Technologies** as key enablers of future governance.

Felicitation of Dignitaries

Shri Atal Dulloo, IAS

Chief Secretary J&K

Shri Atal Dulloo, IAS, Chief Secretary, Jammu & Kashmir, underscored Tech Saksham as a decisive move towards future ready digital governance, emphasizing that the effective use of **Artificial Intelligence, Cloud Computing and Cyber Security** is essential for delivering secure, transparent and citizen centric public services in an increasingly digital world.

Shri Shantmanu, IAS (Retd.)

State Election Commissioner, J&K

Shri Shantmanu, IAS (Retd.), Hon'ble State Election Commissioner, reflected on how digital tools and secure technology frameworks are reshaping public institutions, observing that initiatives such as Tech Saksham play an important role in deepening **cyber security awareness while reinforcing transparency, credibility and public confidence** in governance processes.

Shri Dr. Piyush Singla, IAS

Secretary (IT), J&K

Shri Piyush Singla, IAS, Secretary (IT) described Tech Saksham as a strategic step towards preparing government institutions for the next phase of digital transformation, with a clear focus on **AI driven systems, secure cloud platforms and cyber resilient infrastructure**, noting that sustained capacity building is vital for strengthening efficiency, accountability and trust in governance.

NICSI PBD Solution Overview

NICSI PBD & NIC team

In his presentation, **Shri Sanjay Gupta, Assistant State Informatics Officer, NIC Jammu & Kashmir**, highlighted a range of **NICSI/NIC digital products** showcased under the **Tech Saksham** programme.

His presentation covered solutions spanning **e-Counselling services for Admission and Examination Management**, **e-Hospital services**, **municipal service delivery through e Nagar Setu**, **Service Plus for low code/no code delivery of digital citizen services**, **Aadhaar based Face Authentication**, and **Vehicle Location Tracking Systems**, underscoring how these trusted digital tools can enhance efficiency, transparency and service delivery across departments while supporting Jammu & Kashmir's journey towards robust, future ready digital governance.

Technical Session

by Shri Amit Dubey - Cyber Security Expert

Cyber Security Expert Session

Shri Amit Dubey, an IITian and a highly esteemed **National Cyber Security Expert** with over 22 years of professional experience in the field. He has regularly contributed to important initiatives in the defense sector and Police departments across the country providing expertise in AI, ML, and Cyber Crime Investigations. He is additionally recognized as a prominent technology influencer through his widely followed YouTube and Instagram platforms.

Technical Session

Shri Rajendran Dandapani, Business Solutions Evangelist, Zoho Corporation

Cloud Expert Session

Shri Rajendran Dandapani, Business Solutions Evangelist, Zoho Corporation, addressed the audience on growing importance of cloud computing in government, explaining how Zoho is building secure, scalable and efficient cloud solutions to meet evolving customer needs. He underlined that Zoho's focus on data security, resilience and cost effectiveness makes its cloud platforms well suited for government systems seeking reliable, India centric digital infrastructure.

Technical Session

Shri Alok Tiwari, MD, NICSI

AI & Cyber Security Session

Shri Alok Tiwari, Managing Director, NICSI, highlighted the strong interdependence between Artificial Intelligence and cyber security, noting that AI is reshaping how threats are detected and responded to, while robust cyber frameworks are essential to protect AI driven systems themselves—together enabling smarter, safer and more dependable digital governance.

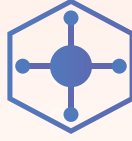

Vote of Thanks

Shri J. S. Modi, State Informatics Officer (SIO), NIC, in his closing remarks, highlighted the importance of **strong collaboration, continuous learning and future ready capacity building frameworks** to ensure that the Tech Saksham platform is effectively leveraged, enabling government institutions to fully harness the potential of emerging technologies for strengthened and sustainable digital governance.
