**Focus Areas:**

**e-Governance | Cyber Security | Artificial Intelligence / Machine Learning | Data Science | Digital Public Infrastructure | Central & State Government Large Applications | Government Cloud.**

**<u>Domains/ Areas available for Internship:</u>**

1. Artificial Intelligence & Advanced Computing
   - Artificial Intelligence(AI)–LLMs, Agentic AI, Generative AI
   - Deep Learning & Neural Networks
   - Chat bots &Intelligent Interfaces
   - Quantum Computing & Cryptography

2. Cyber Security & Risk Management:
   - Cyber Security & Threat Analysis
   - Security Operations Center(SOC)

- SIEM/SOAR, UBA, NDR Technologies
- Impact on AI in Cyber Security
- Dev SecOps & Secure Automation

3. Cloud, Data & Infrastructure
   - Cloud Computing & Infrastructure (AWS, Azure, GCP)
   - Cloud & Data Engineering
   - Data Analytics & Big Data Solutions
   - Networking & Infrastructure Technologies

4. Software Development & Engineering
   - Software & Application Development
   - Backend Development (Java,.NET, Node.js, PHP)
   - Frontend Development (React, Angular)
   - Full Stack Development
   - Mobile App Development

5. Modern Architecture & Integration
   - Micro services Architecture & Implementation
   - Open APIs & Backend Integrations
   - Dev Ops &Automation Pipelines
   - Modern Coding Practices

6. Emerging Technologies
   - Block chain Technology
   - Internet of Things (IoT)
   - GIS (Geographic Information Systems)

7. Design, Testing & Documentation
   - UI/UX (User Interface & User Experience Design)
   - Software Testing& Quality Assurance
   - Technical Documentation

8. Digital Transformation & Governance
   - Digitalisation/Scanning
   - E-Governance Consultancy

Applications are invited from Bonafide Students of recognized Universities/Institutions in India or abroad for engagement as Interns at NICSI. The detailed eligibility conditions and other terms are specified below.

**Objective:**

The objective of the NICSI Internship Scheme is to attract meritorious students from recognized Universities and Institutions and provide them structured exposure to **e-Governance solutions, Digital Public Infrastructure and Government IT ecosystems**, enabling interns to contribute to NICSI's functional areas while gaining professional insight into public sector digital transformation.

The internship program is designed to achieve the following key objectives:

**A. Structured Learning**
Provide systematic exposure to **live Government IT projects**, enabling interns to understand real-world e-Governance systems and digital platforms used in Government.

**B. Innovation & Research**
Encourage interns to contribute to **live e-Governance solutions**, supporting innovation, research and technological advancement within NICSI's functional areas.

**C. Digital India Mission**
Provide an opportunity for students to **be part of India's Digital India transformation** and contribute to strengthening the country's digital public infrastructure.

**D. Career Development**
Offer**professionalinsightandexposuretoGovernmenttechnologyecosystems**,helpin g interns develop practical knowledge and prepare for future employment opportunities.

**Eligibility:**

Bonafide students from recognized Universities/Institutions in India or abroad, pursuing or having recently completed courses relevant to NICSI functional domains including Computer Science & Engineering, Information Technology, Electronics, Artificial Intelligence, Data Science, Machine Learning, Cyber Security, Software Development, Cloud & Data Centre, System admin & DBA and develops, compliance & Management, system Architect shall be eligible to apply under the NICSI Internship Scheme.
