

National Informatics Centre Services Incorporated (NICSI)
NICSI Capacity Building Initiatives
for Central Government & State Government

"Tech Saksham"

Building Digital Excellence Across Government

1. Introduction

NICSI is actively contributing to the development of digital capabilities across government institutions through a range of capacity-building initiatives. These programmes are designed to equip officers, professionals, and academic stakeholders with knowledge and practical skills in emerging technologies and digital transformation.

Through specialised workshops and institutional collaborations, NICSI is fostering a future-ready ecosystem that supports the vision of Digital India.

2. Tech Saksham: Digital Excellence Programme

In April 2026, NICSI launched **Tech Saksham**, a pan-India workshop series under the Digital Excellence Programme.

The initiative focuses on building capabilities in:

- Artificial Intelligence (AI)
- Cyber Security
- Cloud Technologies

Tech Saksham is designed to empower government officers and stakeholders with practical knowledge and exposure to emerging technologies that are transforming governance and public service delivery.

3. Reach and Coverage

Workshops under Tech Saksham have been conducted in:

- Jammu & Kashmir
- Tripura
- Gujarat
- Rajasthan

The programme is progressively expanding across the country to support digital transformation initiatives at the grassroots level.

4. Tech Shiksha Connect: Collaboration with Premier Institutions

Tech Shiksha Connect is NICSI's collaborative initiative with leading educational institutions aimed at fostering innovation, knowledge exchange, and digital capacity building.

The programme has commenced in collaboration with:

- IIT Jammu
- NIT Agartala
- XLRI Jamshedpur
- IIT Bhubaneswar
- NIT Bhubaneswar

The initiative seeks to strengthen engagement between academia, technology experts, and government stakeholders while promoting awareness of emerging technologies.

5. Driving Digital Transformation

Through Tech Saksham and Tech Shiksha Connect, NICSI is creating platforms for knowledge sharing, skill development, and collaboration. These initiatives contribute to the development of a digitally empowered workforce capable of leveraging advanced technologies to improve governance outcomes.

6. Conclusion

NICSI's capacity-building initiatives reflect its commitment to strengthening digital competencies across government and academic ecosystems. By promoting awareness, enhancing technical skills, and encouraging collaboration, NICSI continues to play a pivotal role in advancing the nation's digital governance agenda.
